

FINANCIAL EFFICIENCY ROADSHOW 2019

The Future of the Finance Function in the Australian Public Sector

Brisbane 12th Feb • **Canberra** 13th Feb • **Sydney** 14th Feb • **Melbourne** 15th Feb • **Wellington** 18th Feb

WHAT TO EXPECT

Governments face many complex issues: we are constantly challenged to solve society's greatest challenges, serve citizens better, and support the more productive use of public resources. The digital age brings new opportunities to innovate for optimised outcomes.

Finance is in the prime position to navigate change and orchestrate innovation: much of the required data and analytical capability sits in our function and we often have a bird's eye view of the organisation's performance. The challenge, now, is to demonstrate the critical role Finance plays in the digital age to secure our seat at the decision-making table.

The Public Sector Financial Efficiency Conference focuses on how finance leaders in government are transforming the function to sharpen insight and secure its business partner status to drive their organisations towards its long-term goals.

WHO WILL ATTEND?

Chief/Director/Head of:

- ▶ Finance
- ▶ Finance Control
- ▶ Finance Transformation
- ▶ Finance Shared Services
- ▶ Finance Operations
- ▶ Process Excellence
- ▶ Financial Analytics
- ▶ Business Intelligence
- ▶ Business Partnering

WHY ATTEND? Network and benchmark with your peers from across the region and country as you learn about:

The changing role of finance and what is being done now to navigate towards goals

Transforming the organisational culture to support the new finance function's goals

Become the nerve centre for managing our organisation's response to change

Analysing strategies that power accelerated improvement, agility & better decisions

Creating practices that promote and demonstrate high standards of probity

8:15am	Registration Opens	10:15am	Morning Tea and Networking
8:35am	Public Sector Network Opening Charlotte Kok, Producer, Public Sector Network	10:40am	Interactive Think Tank Session Facilitated by KPMG Intelligent Automation and Talent Management Intelligent automation (IA) leverages combinations of extreme automation technologies and services. At its most basic level, robots — or bots — automate the steps in a process. At its most complex level, cognitive systems handle exception processing, make judgments to resolve customer issues, and complement knowledge workers to provide new insights. The future will rely on IA so we must start thinking about including a different mix of talent — individuals who understand and know how to use this collective suite of advanced technologies – to ensure success. This session will focus on employing advanced technologies, and talent management strategies, to transform Finance.
8:45am	KPMG Chair Welcome Craig Sloan, Partner, Financial Management, KPMG		
9:00am	Evolving Finance Leadership: Our Next Steps in the Digital Revolution The effects of digitisation continue to be felt as technology keeps developing at an exponential pace. 34/60 Margaret Street
Sydney NSW 2010

Excellent event, great conversations & a platform to interact with the right government contacts & partner community.

A very relaxed ambience... customers really letting down their guards not feeling as threatened by industry and vendors.

Great event from beginning (planning) to end. One of the best events we have sponsored in terms of conversations had at booth, opportunity to promote our brand. PSN did an amazing job of event management. Well done.

The roadshow was a great way to see what others are up to and provides invaluable networking opportunities to further our learning.
