

PROCUREMENT TRANSFORMATION ROADSHOW 2019

The Future of the Procurement Function in the Australian Public Sector

Brisbane 12th Feb • **Canberra** 13th Feb • **Sydney** 14th Feb • **Melbourne** 15th Feb • **Wellington** 18th Feb

INTRODUCTION

WHAT TO EXPECT

Procurement's primary aim is to spend the organisation's money well; increasing buying power, streamlining processes, increasing accountability and transparency whilst fuelling greater decision-making competence.

The Commonwealth procurement policy changes in the past 18 months have made public sector professionals re-assess and re-design their procurement thinking and practices. Now Government have to factor in two additional considerations: making more opportunities available to SMEs and engagement in social procurement initiatives.

Procurement conversations have radically changed from

being a predominantly cost-driven exercise to one that takes into consideration other positive aspects of a supplier's offering.

This new approach to procurement takes place against a backdrop of technological advancement; one that allows better alignment and collaboration between different departments and divisions within the government organisation.

The Public Sector Procurement Transformation Conference focuses on strategies to enable major, and long-term improvements to procurement teams.

Excellent event, great conversations & a platform to interact with the right government contacts & partner community.

A very relaxed ambience... customers really letting down their guards not feeling as threatened by industry and vendors.

Great event from beginning (planning) to end. One of the best events we have sponsored in terms of conversations had at booth, opportunity to promote our brand. PSN did an amazing job of event management. Well done.

The roadshow was a great way to see what others are up to and provides invaluable networking opportunities to further our learning.
