

PROCUREMENT TRANSFORMATION ROADSHOW 2019

The Future of the Procurement Function in the Australian Public Sector

Brisbane 12th Feb • **Canberra** 13th Feb • **Sydney** 14th Feb • **Melbourne** 15th Feb • **Wellington** 18th Feb

WHAT TO EXPECT

Procurement's primary aim is to spend the organisation's money well; increasing buying power, streamlining processes, increasing accountability and transparency whilst fuelling greater decision-making competence.

The Commonwealth procurement policy changes in the past 18 months have made public sector professionals re-assess and re-design their procurement thinking and practices. Now Government have to factor in two additional considerations: making more opportunities available to SMEs and engagement in social procurement initiatives.

Procurement conversations have radically changed from

being a predominantly cost-driven exercise to one that takes into consideration other positive aspects of a supplier's offering.

This new approach to procurement takes place against a backdrop of technological advancement; one that allows better alignment and collaboration between different departments and divisions within the government organisation.

The Public Sector Procurement Transformation Conference focuses on strategies to enable major, and long-term improvements to procurement teams.
