

LOCAL GOVERNMENT TRANSFORMATION SERIES 2019

Creating interconnected councils

Adelaide 7th May • **Melbourne** 8th May • **Brisbane** 9th May
Wellington 21st May • **Sydney** 22nd May • **Perth** 23rd May

Governments face many complex issues: we are constantly challenged to solve society's greatest challenges, serve citizens better, and support the more productive use of public resources. The digital age brings new opportunities to innovate for optimised outcomes.

Local councils in Australia and New Zealand recognise the need to digitally transform their organisations. Most councils have started the journey to successfully transition to a citizen-centric digital local government. However reduced levels of funding and staffing, cost of resourcing, resistance to change, limited technical capability and infrastructure and lack of leadership and strategy make this journey difficult for most councils.

Achieving a holistic transformation is another key challenge, to ensure front and back office processes and systems

get upgraded. Whilst good progress has been made in delivering efficiency savings, the need to transform has never been more pressing.

The 2nd annual Local Government Transformation Series will bring together local government senior executives focused on customer, business, ICT and digital transformation, and technology providers, to network and discuss how to make the most of these challenges.

The series is organised in partnership with KPMG and will head to 6 cities

across Australia and New Zealand to benchmark the key challenges faced by LGAs in each state and country, and develop a comprehensive report on the findings.

The report will be created using a combination of interviews and surveys, as well as expert opinions, and released later in the year, in partnership with KPMG.

Join your peers to identify opportunities to collaborate across councils for greater efficiencies.

WHO WILL ATTEND?

- ▶ CIO/CTO/IT Directors
- ▶ CEOs, CDOs, COOs
- ▶ IT Infrastructure Managers
- ▶ ICT Managers
- ▶ General Managers of Information Management, Business Transformation and Improvement
- ▶ Heads of Corporate Services
- ▶ Heads of Customer Service, Customer Experience and Customer Insights
- ▶ Heads of Community Engagement
- ▶ Heads of Business Units

2:00pm	Short Break		

About us

Public Sector Network is a young, diverse company that exists to help government break down silos, collaborate, and work together for better outcomes for citizens. We believe that public sector is forced to be one of the most innovative and resourceful industries in the world. Rather than constantly solving the same problem, government can improve citizen services whilst saving time - and money - by sharing and learning from other agencies, departments and councils.

“
Excellent event, great conversations & a platform to interact with the right government contacts & partner community.
”

“
A very relaxed ambience... customers really letting down their guards not feeling as threatened by industry and vendors.
”

“
The roadshow was a great way to see what others are up to and provides invaluable networking opportunities to further our learning.
”

“
Great event from beginning (planning) to end. One of the best events we have sponsored in terms of conversations had at booth, opportunity to promote our brand. PSN did an amazing job of event management. Well done.
